

Joey Bruton

Safety Manager

Mr. Joey Bruton has more than ten years of experience in the oil field industry, with half of that specializing in Safety and Training. His experience includes working with city, county, and state entities. Mr. Bruton is skilled in implementing, revising and structuring safety policies and procedures. Mr. Bruton is a fully-qualified equipment operator on motor graders, dozers, backhoes, trackhoes, loaders, and variety of other construction equipment. He also holds a Commercial Drivers License. Mr. Bruton has worked extensively in the oil field service industry directing and performing safety policies and procedures. His specific duties include maintaining OSHA 300-301 Logs and Employee Certifications, investigating incidents and accidents, compliance with OSHA standards, drug and alcohol compliance, new hire orientation and scheduling all training for employees.
